OCCUPATIONAL STANDARD

(For use in the development of supply chain related job descriptions, performance evaluations, career development plans, etc.)

Position:	TRANSPORTATION MANAGER
Description of Position (As defined by the CSCSC Stakeholder Community)	<i>Transportation Managers plan, organize, direct, manage, evaluate, and are responsible for the operations and budget of transportation departments responsible for the transportation and movement of goods or companies involved in supply chain services. This position includes the identification of opportunities for transportation operation improvements.</i>
Position Development	Advancement to upper management positions is possible through good performance and extensive management experience exhibiting progressive responsibility.
Required Qualifications:	(Education, Training, Related Work Experience)
Education	A Transportation Manager usually requires a college diploma or university degree in business administration, transportation administration, or engineering. A combination of related training and considerable experience may be considered an equivalent. Additional qualifications via specializations in supply chain are beneficial.
Training	Individuals generally require some on-the-job training; however, typically these occupations require that the individual will already have the required skills, knowledge, work-related experience, and/or training. Specialized training in transportation management systems is considered an asset. Certification as an operator of a particular mode of transportation, such as commercial pilot, vessel master or truck driver, is usually required.
Related Work Experience	Several years of progressively responsible experience in transportation operations are usually required. Transportation Managers usually have extensive experience as fleet supervisors, distribution centre supervisors, or logistics analysts.
Tasks:	

*Note the OS addresses alternative position titles including Manager of Traffic and Transportation, Manager of Corporate Transportation, Transportation Logistics Manager, Transportation Fleet Manager, Marine Transportation Operations Manager, Railway Freight Manager, Freight Forwarding Manager, Marine Superintendent, Flight Operations Manager, etc.

Transportation Managers may perform some or all of the following tasks:

- Plan, develop, organize, direct, manage, and evaluate the operations and budget of transportation departments or transportation companies
- Direct the activities of staff in relation to transportation operations including dispatching, routing, and tracking transportation vehicles
- Direct the effectiveness of private, third party and contract carriage systems
- Work with international carriers and freight forwarders to streamline the flow of goods across international borders and through customs
- Plan, develop, and implement transportation health and safety, and security programs and activities
- Develop and communicate transportation policies and procedures
- Monitor operations to ensure that staff comply with administrative policies and procedures, safety rules, union contracts, and government regulations
- Develop and implement profit improvement plans and change management plans
- Negotiate and authorize contracts, and direct procurement related to transportation operational needs
- Direct and manage corporate governance and regulatory compliance procedures related to transportation activities
- Develop key performance indicators to measure the effectiveness of the transportation operations
- Conduct investigations to determine causes of transportation accidents and to improve safety procedures
- Direct investigations to verify and resolve customer complaints
- Interview, select, coach, train, manage, and appraise the performance of transportation personnel
- Mentor select transportation staff
- Develop constructive and cooperative working relationships
- Remain current with latest transportation technology systems and procedures
- Negotiate with carriers, warehouse operators and insurance company representatives for services and preferential rates
- Prepare management recommendations, such as proposed fee and tariff increases or schedule changes
- Recommend or authorize capital expenditures for acquisition of new equipment or property to increase efficiency and services of transportation operations

***Note the OS addresses alternative position titles including Manager of Traffic and Transportation, Manager of Corporate Transportation, Transportation Logistics Manager, Transportation Fleet Manager, Marine Transportation Operations Manager, Railway Freight Manager, Freight Forwarding Manager, Marine Superintendent, Flight Operations Manager, etc.**

	<ul style="list-style-type: none"> • Where applicable, participate in union contract negotiations • Maintain open dialogue with other department managers to coordinate activities and improve performance and productivity
